

Meridian responsive QA

Responsive website QA report

Source	http://127.0.0.1:4175/
Client	Meridian
Prepared by	Pablo Barzet
Captured	2026-09-01T22:08:33.648Z
Capture mode	Standard
Viewports	Mobile: 390px Tablet: 768px Desktop: 1440px

Responsive navigation review across mobile, tablet, and desktop widths.

Responsive-width evidence generated locally in Chrome. This is not real-device, Safari, touch, mobile-user-agent, or device-pixel-ratio emulation.

Review summary

Viewport	Width	Status	Findings	Warnings
Mobile	390px / 390px	Needs changes	1	2 capture notes
Tablet	768px / 768px	Pass	0	2 capture notes
Desktop	1440px / 1440px	Pass	0	2 capture notes

Automated checks are rules-based candidates, not a substitute for human review. Only findings explicitly confirmed in the Capture Center appear below.

CSS breakpoint coverage: 500px, 800px detected in browser-readable stylesheets.

Findings and recommendations

Generated locally from page layout measurements at each test width. Recommendations remain editable in the Capture Center.

Medium impact
Human confirmed

Navigation exceeds the mobile viewport

Observed at: Mobile 390px

Manual review: The navigation continues beyond the visible 390px canvas.

Recommendation: Collapse the navigation into a mobile control before 500px.

Mobile

Requested 390px | measured 390px | 2776px captured

Status: Needs changes

Navigation exceeds the mobile viewport at 390px.

1 confirmed finding; see Findings and recommendations.

Capture notes: Repeated fixed or sticky elements were suppressed after the first segment. Page content changed while the full-page screenshot was assembled.

The complete full-resolution screenshot is included in the Screenshots folder of this package.

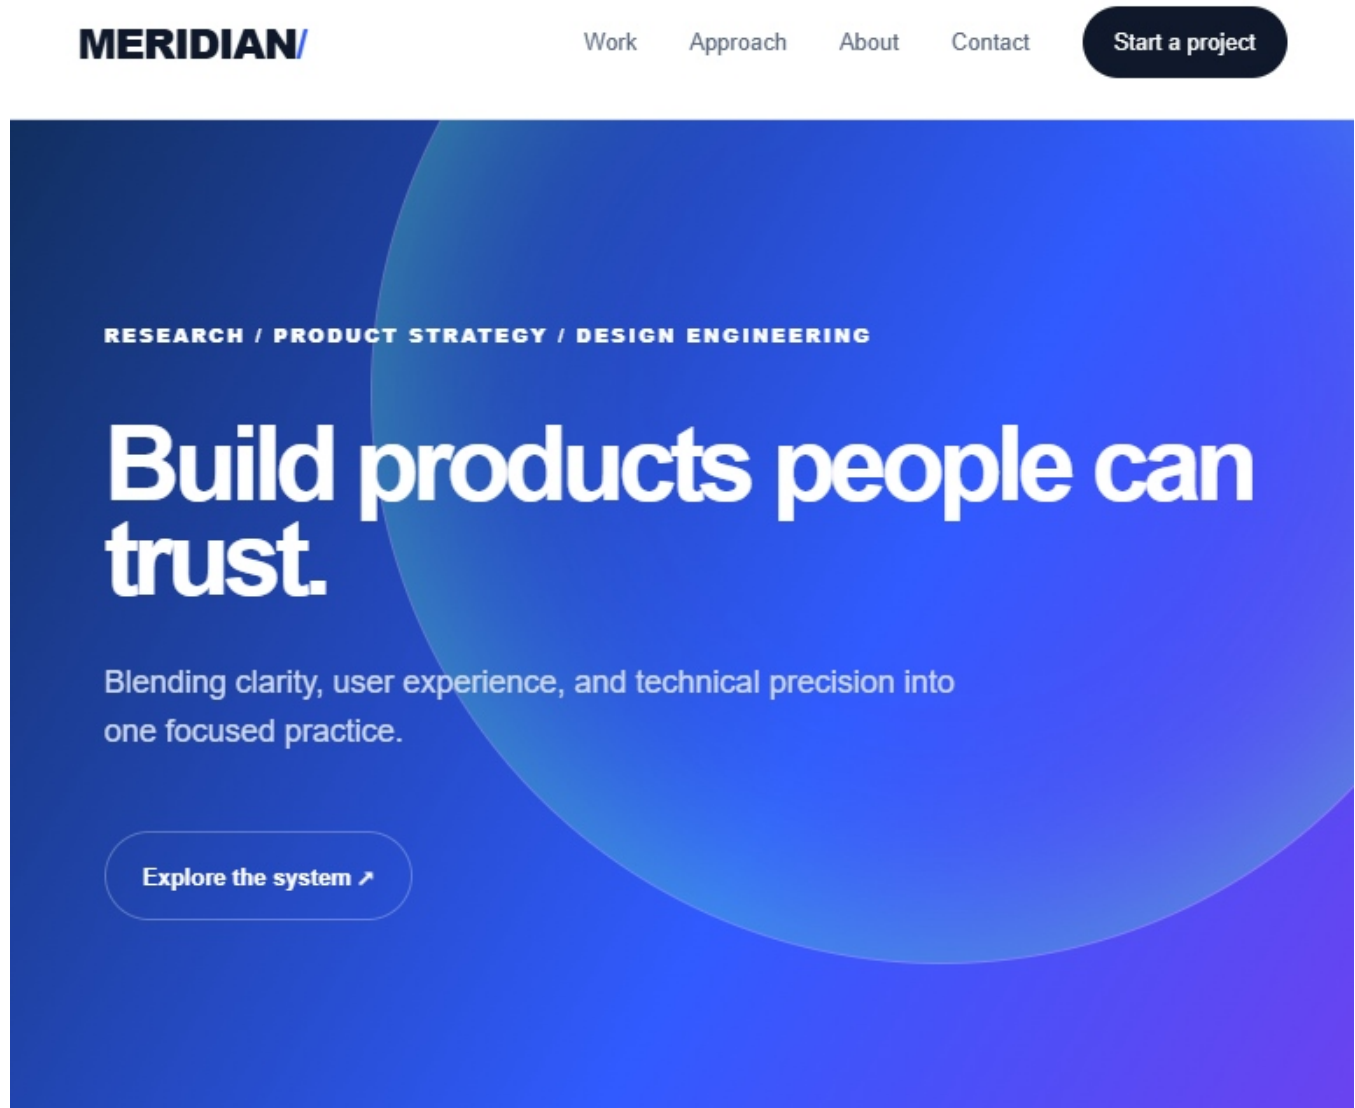

Tablet

Requested 768px | measured 768px | 2871px captured

Status: Pass

0 confirmed findings; see Findings and recommendations.

Capture notes: Repeated fixed or sticky elements were suppressed after the first segment. Page content changed while the full-page screenshot was assembled.

The complete full-resolution screenshot is included in the Screenshots folder of this package.

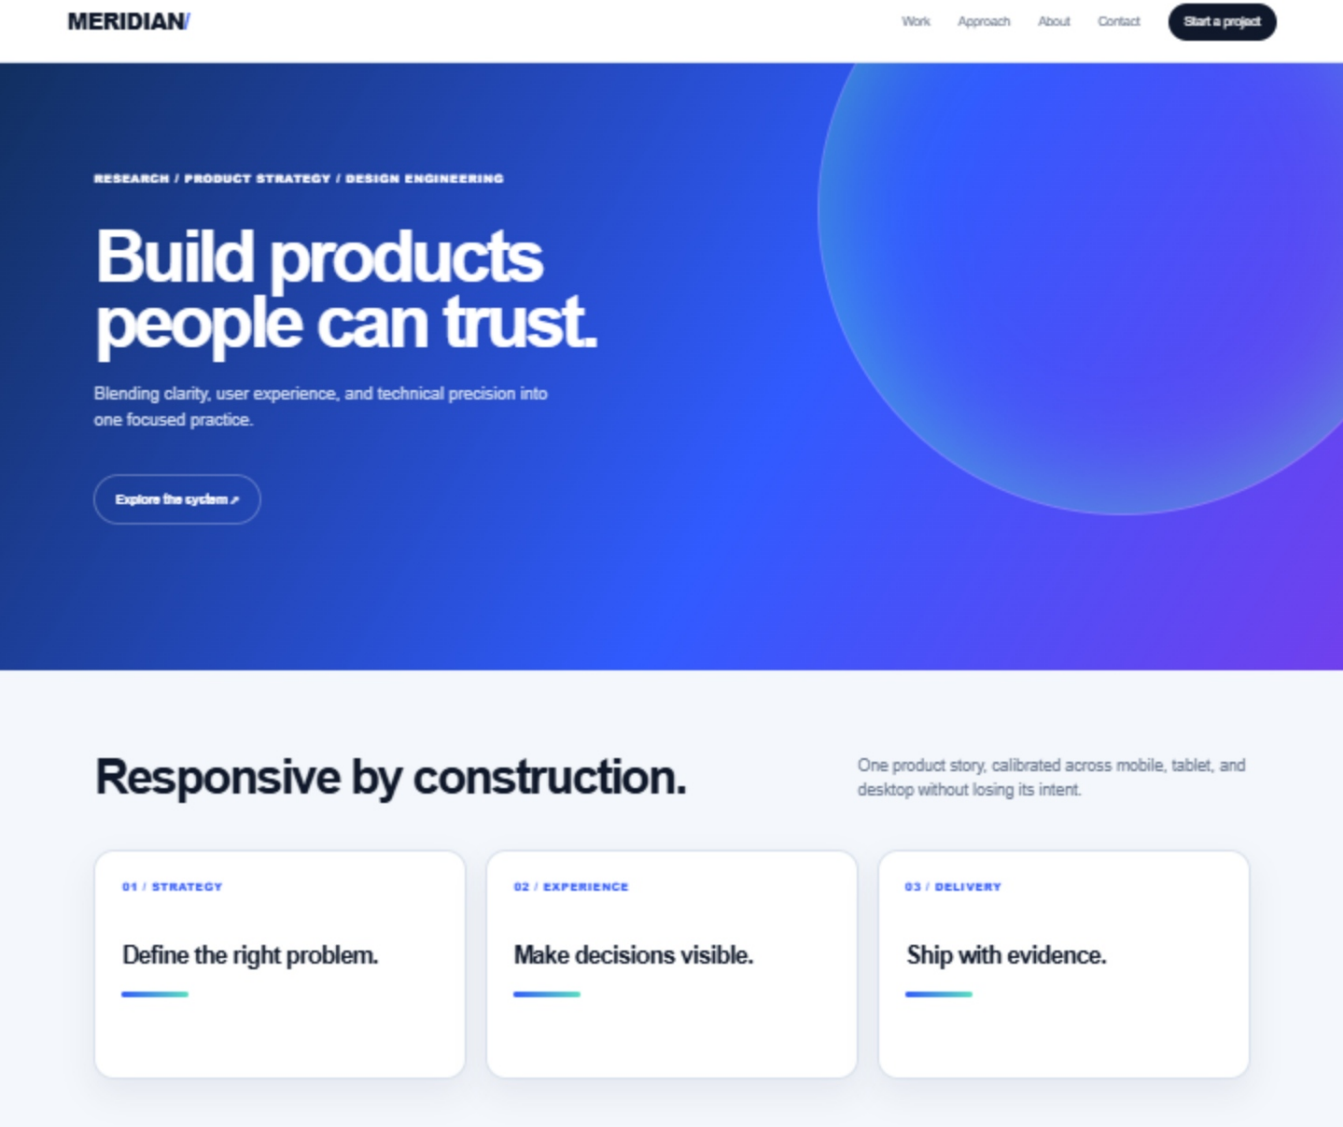

Desktop

Requested 1440px | measured 1440px | 1848px captured

Status: Pass

0 confirmed findings; see Findings and recommendations.

Capture notes: Repeated fixed or sticky elements were suppressed after the first segment. Page content changed while the full-page screenshot was assembled.

The complete full-resolution screenshot is included in the Screenshots folder of this package.
